Project Work

• EMS (Employee Management System) :

- Developed a desktop-focused Employee Management System (EMS) using React.js for dynamic UI components and Tailwind CSS for modern, maintainable styling.
- Implemented a task creation feature, enabling administrators to efficiently assign and manage tasks for employees through an intuitive user interface.
- Designed interactive components for employee data management and task tracking to improve usability and workflow efficiency.

• Rejouice.com Clone (Animated Website) :

- Recreated a dynamic, animated clone of Rejouice.com, utilizing GSAP, ScrollTrigger, Locomotive Scroll, and Sniper.js to implement advanced animations and smooth scrolling effects.

Hobbies

- My hobbies are **Coding**, Traveling, Reading Books & Novels.

Awards and Certificates

- My biggest achievement is I got **Electric Scooty** as a Award by the MP Govt because of My school academic performance .
- Machine Learning In Python, Training Certificate by Acmegrade.
